LES MAINS DU MONDE

NORD  
SUD

STEPHANE PARMENTIER

— — —

La Manufacture Cogolin présente Nord/Sud, une collection de tapis noués main éditée dans la ligne Cogolin et les Mains du monde, dessinée par l'architecte d'intérieur et designer français Stéphane Parmentier.

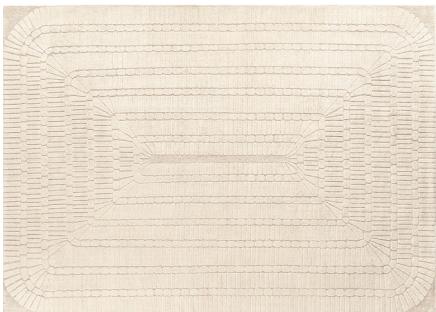

Disponible en trois tailles standard, et en sur mesure, cette collection de cinq tapis et deux runners tire son inspiration du travail du céramiste Roger Capron et des artisans de Vallauris, ainsi que du pavage traditionnel en France.

Déclinés dans une palette chromatique emblématique du sud de la France - Rosé, Nougat - et des nuances plus urbaines telles qu'Asphalte ou Granite, ces tapis en laine, lin et soie sur une base en sumac évoquent une place provençale ou le bitume parisien selon les coloris choisis. Les différents modèles tirent d'ailleurs leurs noms de villes situées sur le parcours de la Nationale 7.

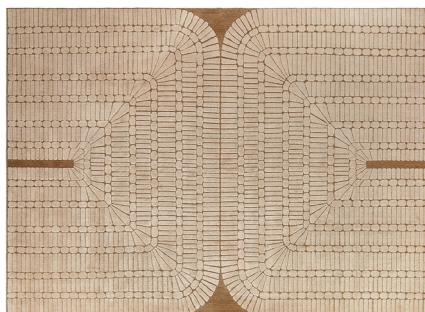

*La Manufacture Cogolin introduces Nord/Sud, a collection of hand-knotted rugs presented in the Cogolin et les Mains du monde line and designed by French interior architect and designer Stéphane Parmentier.*

*Available in three standard sizes - as well as in custom dimensions - Nord/Sud is a line of five carpets and two runners, with patterns inspired by the artwork of Roger Capron and the Vallauris artisans as well as by the traditional paving stones found throughout France.*

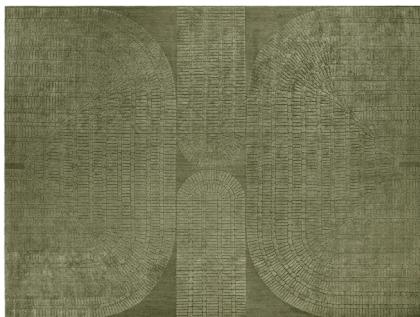

*Available in a colour palette ranging from the pastels of Provence such as Rosé or Nougat to the more urban colours of Asphalte or Granite, the rugs are made from the finest wool, linen and silk, hand-knotted over a sumac backing. Depending on the colours chosen, they can recall a picturesque Provençal square or a busy Parisian street. In fact, the rugs are named after cities along the Nationale 7 road in France, also called The Holiday Route.*
